

TreuVizion Consulting Corporation is a Minority Veteran-Owned Small Business providing business continuity, disaster recovery, emergency preparedness, and risk management services. TreuVizion has over 18 years of professional experience and leverages industry best practices to provide effective and meaningful consultation. TreuVizion is certified by the Disaster Recovery Institute (Drii.org) as a **Certified Business Continuity Vendor (CBCV)** and we follow the recommended Professional Practice Areas (PPA)s.

## Professional Practice Areas

- Program Initial and Management
- Risk Evaluation and Control
- Business Impact Analysis
- Business Continuity Strategies
- Emergency Response and Operations
- Plan Implementation and Documentation
- Awareness and Training Programs
- Business Continuity Plan Exercise, Audit and Maintenance
- Crisis Communications
- Coordination with External Agencies

## Continuity Planning Life Cycle

## Our Mission

TreuVizion Consulting's approach to projects has three key elements to ensure excellent results are delivered cost effectively and efficiently:

- Our Subject Matter Experts (SME)s are deeply involved in the process, working continuously to evaluate and assess the project, its deliverables, to ensure on time delivery.
- We follow globally recognized standards, as well as regulatory guidance, to ensure the finished project is within applicable compliance and regulatory standards.
- We focus on human elements, as well as tool facilitation, to ensure a fluid, accurate, and repeatable circle of learning and plan execution.

Throughout the engagement, we take a hands-on approach to facilitating the process, utilizing proven resources with our clients to ensure quality and expected outcomes.
